

		PROJECT PRESENTATION: PROJECT DEVELOPMENT (TO BE COMPLETED BY SV)							
PROGRAMME :		DIPLOMA IN BIOMEDICAL INSTRUMENTATION ENGINEERING					DURATION:		
TOPIC:		PROJECT DEVELOPMENT					WEEK 18		
COURSE:		DBD/DBR/DBI/DBT/DBL - 51014					WEIGHTAGE:		
RELATED CLO:		Organise investigations of broadly-defined problems; locate, search and select relevant data from codes, data bases and literature, design and conduct experiments to provide valid conclusions					10%		
STUDENT NAME :					MATRIX NO. :				
SEM / SESSION :		5 / JUL - DEC 2026							
SECTION A: CRITICAL ASSESSMENT									
No.	Mark ✓ for type of critical item to be assessed.						Mark ✓ = YES if follow the criteria Mark X = NO if not follow the criteria		
	1. Functional	2. Accuracy	3. Finishing	4. Agility	5. Endurance	6. Safety	YES	NO	
1	The environment/ project is safe for the presentation								
2	The student is physically and mentally fit to conduct the presentation								
Section A Marks		If NO critical items are being assessed in Section A, circle 1.0					1.0		
		If ALL the critical items are marked (✓) in Section A, circle 1.0							
		If ANY of the critical items is marked (X) in Section A, circle 0.5							
					0.5				
SECTION B: WORKING PROCESS ASESMENT [90% @ 100%]									
No.	Criteria					Basic Mark	Factor / FP	Obtain Basic Mark	Obtain Mark
WORK PROCESS									
	Domain	Approach of Project							
1	PLO 4: DP1-DK5, DP4	1.1	Explanation of Methods/Approaches				0.72		
			i) There are no methods / approaches presented.			0		0.00	0.00
			ii) Very poor - Very poor explanation of methods and approaches, without flowchart.			1		0.72	2.00
			iii) Poor - Poor explanation of methods and approaches, includes flowchart but has errors.			2		1.44	4.00
			iv) Fair - Moderate explanation of methods and approaches, includes correct flowchart but not clear.			3		2.16	6.00
			v) Good - Good explanation of methods and approaches, includes correct flowchart.			4		2.88	8.00
		vi) Excellent - Excellent explanation of methods and approaches, with detail flowchart.			5	3.60	10.00		
		1.2	Justification of hardware/software selection				0.72		
			i) There are no hardware and software list presented.			0		0.00	0.00
			ii) Very poor - hardware and software selection are presented but not justified.			1		0.72	2.00
			iii) Poor - Poor justification of hardware and software selection.			2		1.44	4.00
			iv) Fair - Moderate justification of hardware and software selection.			3		2.16	6.00
			v) Good - Good justification of hardware and software selection.			4		2.88	8.00
		vi) Excellent - Excellent justification of hardware and software selection with comparison.			5	3.60	10.00		
		1.3	Project Sketching / Visualisation				0.72		
			i) Without project sketching / visualisation presented.			0		0.00	0.00
			ii) Very poor - Unrelated project sketching / visualisation, does not represent the actual project.			1		0.72	2.00
			iii) Poor - Ambiguous Project sketching / visualisation included but without labelling / dimensions.			2		1.44	4.00
	iv) Fair - Clear project sketching / visualisation included but improper labelling / dimensions.			3	2.16	6.00			
	v) Good - Precise sketching / visualisation included with proper labelling / dimensions.			4	2.88	8.00			
	vi) Excellent - Precise project sketching / visualisation included with accurate labelling / dimensions.			5	3.60	10.00			
RESULT / OUTCOME / SKILLS									
	Domain	Project Development							
		(A) FOR HARDWARE + SOFTWARE TYPE PROJECT		(B) FOR SOFTWARE TYPE PROJECT					
		Software Progress (Programming / Simulation)		Software Progress (Application / Webpages)			2.40		
		i) All programming/simulations are not completely developed.		i) All application/webpages are not completely developed.		0		0.00	0.00
		ii) 70% or less from overall programming / simulations are developed		ii) 70% or less from overall application / webpages are developed		1		2.40	6.67
		iii) Overall programming / simulations are developed BUT NOT fully function.		iii) Overall Application/webpages are developed BUT not fully function.		2		4.80	13.33
		iv) All programming / simulations are developed AND fully function.		iv) All application/webpages are developed AND fully function		3	7.20	20.00	

2	PLO4: DP1- DK5, DP3		(A) FOR HARDWARE + SOFTWARE TYPE PROJECT	(B) FOR SOFTWARE TYPE PROJECT				
			Hardware Progress (Circuits)	Software Development Tools Usage				
		2.2	i) All hardwares / sub-circuits are not completely assembled.	i) Not able to explanation of the use of development tools in project development.	0	2.40	0.00	0.00
			ii) 70% or less of overall hardwares / sub-circuits are assembled.	ii) Poor explanation of the use of development tools in project development.	1		2.40	6.67
			iii) Overall hardwares / sub-circuits are assembled BUT NOT fully function.	iii) Moderate explanation of the use of development tools in project development.	2		4.80	13.33
			iv) All hardwares / sub-circuits are assembled AND fully function.	iv) Good explanation of the use of development tools in project development.	3		7.20	20.00
		2.3	Experiments/ Project Testing			0.72		
			i) Experiments/ Project Testing is non-exist.	1	0.72		2.00	
			ii) Experiments/ Project Testing are unclear or inappropriate. mengikut layout.	2	1.44		4.00	
			ii) Experiments/ Project Testing with related finding to one objective only.	3	2.16		6.00	
			iv) Experiments/ Project Testing with related finding to two objectives.	4	2.88		8.00	
			v) Experiments/ Project Testing with related finding and reflected to all objectives.	5	3.60		10.00	
		2.4	Experimental Outcome Supports Valid Conclusion			0.72		
			i) There is no coherency between the result of the experiments/ project Testing and the objectives.	1	0.72		2.00	
			ii) Vague evidence of coherency between the result of the experiments/ project Testing and the objectives.	2	1.44		4.00	
			iii) Clear evidence of coherency between the result of the experiments/ project Testing and the objectives.	3	2.16		6.00	
			iv) Clear and concise evidence of coherency between the result of the experiments/ project Testing and the objectives.	4	2.88		8.00	
			v) Clear and concise evidence of coherency between the validated result of the experiments/ project Testing and the objectives.	5	3.60		10.00	
		2.5	Integrity/Originality Project			0.72		
			i) Poorly explain the source of work.	1	0.72		2.00	
			ii) Able to explain the source of work but no own contribution.	2	1.44		4.00	
			iii) Able to explain the source of work but does not clearly highlight own contribution.	3	2.16		6.00	
iv) Able to explain the source of work and well highlight own contribution.	4		2.88	8.00				
v) Able to explain the source of work and exceptionally well highlight own contribution.	5		3.60	10.00				
Total Marks								
Section B marks		If Section C is applicable > Marks in Section B =(Obtain Marks / Total Marks) x 90%						
		If Section C not applicable > Marks in Section B =(Obtain Marks / Total Marks) x 100%						
SECTION C: KEMAHIRAN INSANIAH [10% @ NULL]								
No.	Domain	Sub element				Full Marks	Obtain Marks	
Total Marks								
Section C marks		If Section C is applicable > Marks in Section C =(Marks / Total Marks) x 10%						
		If Section C not applicable > Marks in Section C = NULL					NULL	
RESULT								
If Section C is not applicable								
SECTION A 1 or 0.5 x SECTION B 100% = TOTAL MARKS								
1								
If Section C is applicable								
SECTION A 1 or 0.5 x [SECTION B 90% + SECTION C 10%] = TOTAL MARKS								
VERIFICATION
