

TVETMARA LEDANG		REPORT THESIS MARKING SCHEME (TO BE COMPLETED BY SV)				
PROGRAMME :		DIPLOMA IN BIOMEDICAL ELECTRONICS ENGINEERING			WEEK 18	
COURSE :		DBD/DBR/DBI/DBT/DBL - 51014 FINAL YEAR PROJECT				
SEM / SESSION :		5/JUL - DEC 2026	CLASS :		MARKS	
STUDENT NAME :			MATRIX ID :		20%	
SECTION A: CRITICAL						
No	Criteria				YES* / NO**	
1	FYP thesis writing must completely follow the formative standard outlined in the 'Project and Thesis Guideline'					
*If all criterias in critical section are marked (/), QUALIFY to asses for next section.						
**If one of the critical sections are marked (X), FAILED and NOT QUALIFIED to asses for next section.						
SECTION B: NON CRITICAL (100 marks)						
No	Criteria	Basic Mark	(W)	Obtain Basic Mark a	Full Marks (100)	
DK5 : Knowledge that support engineering design						
PLO3, DK5	ABSTRACT					
	1	Contains key points: hypothesis & rationale of project, approach of methodology and summarising the results.		1.00	Choose	
		i) Poor sentence construction, difficult to extract information.	0		0.00	0.00
		ii) Lacks of key information and does not enlighten the reader.	1		0.33	0.33
		iii) The abstract contains key information with some unbalanced presentation of sections.	2		0.67	0.67
		iv) The abstract contains all of the key information and covered adequately.	3		1.00	1.00
	LIST OF FIGURES / TABLES AND THEIR TITLE CONTENTS					
	2	Appropriate statement with comprehensive title and properly numbering.		1.00		
		i) The title was absent or not appropriate.	0		0.00	0.00
		ii) The title is confusing or ambiguous with regard to the project.	1		0.33	0.33
		iii) In general, well structured and well numbering.	2		0.67	0.67
		iv) Clear and logical present their title, articulate prose, interesting to read.	3		1.00	1.00
	INTRODUCTION					
	3	Project Background		2.00		
		i) Does not include project background in the chapter.	0		0.00	0.00
		ii) Project background presented was not related to the project.	1		0.67	0.67
		iii) Project background presented is not sufficient to support the project.	2		1.33	1.33
		iv) Give precise project background with appropriate information to support the project.	3		2.00	2.00
	4	Problem Statement		3.00		
		i) There are no problem statement include in the chapter.	0		0.00	0.00
		ii) Problem statement is not related to the project.	1		1.00	1.00
		iii) The problem statement given is appropriate but too general.	2		2.00	2.00
		iv) Give a convincing problem statements that support the project.	3		3.00	3.00
	5	Objectives		5.00		
		i) There are no objective include in the chapter.	0		0.00	0.00
		ii) The objective/purpose of the project is not related to the project.	1		1.67	1.67
		iii) The objective/purpose of the project is unclear with poor justification.	2		3.33	3.33
		iv) The objective/purpose of the project is justify and very clear.	3		5.00	5.00
	6	Scope of Project / Limitation		1.00		
		i) There are no scope of project/limitation in this chapter.	0		0.00	0.00
		ii) Scope of the topic is not related to the project.	1		0.33	0.33
		iii) Scope of the topic is not adequate to the level of the project.	2		0.67	0.67
		iv) Scope of the topic is reasonably ambitious for a project and achievable.	3		1.00	1.00

LITERATURE REVIEW				
7	Content			
	i) Little or no evidence of literature review	0	2.00	0.00
	ii) Patchy review and overview of few relevant papers but not related/leading up toward the project.	1	2.00	0.67
	iii) Satisfactory review, concise review of relevant papers and limited critical appraisal	2	2.00	1.33
	iv) Good, concise review of relevant papers, some critical appraisal and set into project's context.	3	2.00	2.00
8	Comparison of previous work			
	i) Does not include the comparison of previous work.	0	2.00	0.00
	ii) Incomplete comparison of previous work.	1	2.00	0.67
	iii) Brief explanation of the previous work comparison but less criteria.	2	2.00	1.33
	iv) Details explanation of the previous work comparison with good criteria.	3	2.00	2.00
MATERIALS AND METHODOLOGY				
9	Project Development (flow to develop project)			
	i) Does not include the project development.	0	5.00	0.00
	ii) Incomplete project development explanation.	1	5.00	1.67
	iii) Brief explanation of the project development (hardware and software) with flowchart/illustration	2	5.00	3.33
	iv) Details explanation of the project development (hardware and software) with good flowchart/illustration	3	5.00	5.00
10	Block diagram and Explanation			
	i) Does not include the block diagram explanation.	0	5.00	0.00
	ii) Incomplete block diagram explanation.	1	5.00	1.67
	iii) Brief explanation of the block diagram with illustration	2	5.00	3.33
	iv) Details explanation of the block diagram project with good illustration	3	5.00	5.00
11	Hardware Development - Material Selection			
	i) Hardware selection is not justified.	0	5.00	0.00
	ii) Some justification for hardware selection exists but aspects of this may be questioned.	1	5.00	1.67
	iii) Justification for hardware selection exists but less evidence of understanding of experimental procedures	2	5.00	3.33
	iv) Good justification on hardware and appropriate understanding of experimental procedures	3	5.00	5.00
12	Hardware and Circuit Implementation			
	i) No experimental / method / procedures / progress towards circuit design.	0	5.00	0.00
	ii) Poor experimental / method / procedures / progress towards circuit design.	1	5.00	1.67
	iii) Sensible experimental / method / procedures / progress towards circuit design.	2	5.00	3.33
	iv) Good justification and appropriate understanding of experimental / procedures / progress towards circuit design	3	5.00	5.00
13	Software Development - Software selection			
	i) Not able to justify a software selection	0	5.00	0.00
	ii) Some justification for selection of software used for project development.	1	5.00	1.67
	iii) Well justification for selection of software and the process for the project development.	2	5.00	3.33
	iv) All aspects of the method are described in excellent detail.	3	5.00	5.00
14	Software Development - Implementation			
	i) No simulation / method / procedures / progress towards software utilizing.	0	5.00	0.00
	ii) Poor simulation / method / procedures / progress towards circuit design.	1	5.00	1.67
	iii) Sensible simulation / method / procedures / progress towards circuit design.	2	5.00	3.33
	iv) Good justification and appropriate understanding of simulation / procedures / progress towards circuit design.	3	5.00	5.00
RESULT AND DISCUSSION				
15	Results of experimental data clearly presented (e.g., in tables, figures, charts or graphs if necessary)			
	i) Presentation of data / results is unclear and inappropriate.	0	10.00	0.00
	ii) Some elements of the data / results are unclear or inappropriate.	1	10.00	3.33
	iii) Presentation of the data / results is generally clear.	2	10.00	6.67
	iv) Clear presentation of the data / results with good justification and validation.	3	10.00	10.00
16	Analysis - comprehensive and complete validation			
	i) Inappropriate or superficial analysis.	0	10.00	0.00
	ii) Some of the analysis is inconsistent or inappropriate.	1	10.00	3.33
	iii) Analysis contains some minor inconsistencies or inaccuracies.	2	10.00	6.67
	iv) Analysis contains accurate/firm statistical value and reasoning.	3	10.00	10.00
